

Mercedes-Benz G-Class

Mercedes-Benz

The Rise of Adventure.

Its spirit is yearning for exploration, the Mercedes-Benz G-Class is ready to conquer both urban jungles and untamed terrains. Dive into a world where elegance meets adventure.

Front design.

The G-Class captures attention immediately with its robust and efficient front design, a symbol of its readiness for new adventures. Its iconic stature is amplified by the newly designed radiator grille and the refined body kit. The MULTIBEAM LED are smart, adaptive, and designed to enhance safety without dazzling others.¹

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

Iconic rear design.

The G-Class's distinct rear spare wheel, a classic feature, now blends flawlessly with the redesigned rear, elevating its commanding presence.

Mercedes-Benz G 500 | Energy consumption combined: XX,XX-XX,XX kWh/100 km |
CO₂ emissions combined: XXX-XXX g/km | CO₂ Class: XXX.¹

¹The specified values were determined in accordance with the prescribed measurement procedure WLTP (Worldwide harmonized Light-duty vehicles Test Procedures). The fuel consumption and CO₂ emissions of a passenger car depend not only on the efficient utilisation of fuel by the car, but also on the driving style and other non-technical factors.

Driving the all-new G-Class.

The Mercedes-Benz G-Class's Double wishbone front axle, paired with electric steering, ensures a smooth, stable ride, reacting flexibly to bumps. Meanwhile the rear robust rigid axle, anchored by two upper and two lower trailing arms to the ladder frame, ensures unparalleled traction across challenging terrains. Paired with the front's precise wheel location, it guarantees optimal G-Class control. Let the Mercedes-Benz G-Class handle gear shifts with the 9G-TRONIC automatic transmission. Its nine gears ensure low engine speeds, reducing fuel consumption and providing a quieter drive.

The Rise of Electric.

The all-new electric G-Class. The Black Panel radiator grille with animated LED strip is a bold statement in black, accentuated by the subtle glow of LED, uniquely tailored to the G-Class' robust elegance.

Design.

Experience advanced engineering in the the all-new electric G-Class. Its iconic ladder frame has been adapted for electric use, enclosing the battery within. This design innovation significantly lowers the vehicle's center of gravity, offering improved balance and a smoother ride. The Design box has a new, elegant design that enhances the car's rear aesthetics while ensuring optimal functionality.

Mercedes-Benz G 580 with EQ technology | Energy consumption combined: XX,XX-XX,XX kWh/100 km |
CO₂ emissions combined: XXX-XXX g/km | CO₂-Class: XXX.*

* The specified values were determined in accordance with the prescribed measurement procedure WLTP (Worldwide harmonized Light-duty vehicles Test Procedures). The fuel consumption and CO₂ emissions of a passenger car depend not only on the efficient utilisation of fuel by the car, but also on the driving style and other non-technical factors.

Electric driving.

The G-ROAR¹ acoustically emphasises the special character of your all-new electric G-Class – both inside and out.

In addition to interactive driving sounds, the G-ROAR accompanies other processes such as charging. With the G-TURN offroad function, you can turn your G-Class spectacularly almost on the spot. The vehicle even rotates by up to 720° in the desired direction on unpaved or loose surfaces. The function can help you manoeuvre, especially on seemingly hopeless offroad stretches. The G-STEERING offroad function reduces the turning circle of your G-Class if required – on unpaved or loose surfaces and at speeds of up to 25 km/h. The drive torque on each wheel adapts individually to the respective situation. For example, you can master Hairpin bends or other narrow sections without time-consuming manoeuvring.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

New designed interior.

Enter the the all-new electric G-Class, where confident design meets handcrafted luxury. Its interior, adorned with hand-fitted leathers and ambient lighting, radiates elegance. Every detail showcases the iconic G-Class sophistication in a harmonious blend of style and comfort.

MBUX.

MBUX offers a transformative infotainment experience. Easily controlled by voice or touch it's seamlessly woven into your digital life. With customizable display styles, MBUX evolves with every journey, intelligently adapting to each driver's unique preferences.

The image shows the front interior of a vehicle, likely a Range Rover, featuring black leather seats with horizontal stitching. The dashboard and center console are visible, with a digital display on the dashboard showing a blue-tinted landscape. The steering wheel is partially visible on the right side. The overall atmosphere is one of luxury and comfort.

Comfort.

Seating comfort and luxury on longer journeys as well: optimise your seating position with all-electric adjustment options via integrated air cushions. Optionally you can enjoy pleasant warmth, one of 8 massage programmes or ventilated seat cushions. The ENERGIZING comfort control provides a variety of programmes to relax or revitalise you.¹ The Warmth Comfort Package¹ heats additional interior features in no time – the seat, the armrests of the centre console and the doors as well as the door centre panels can also be heated.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

Entertainment.

First-class entertainment for you: this means entertainment via two high-resolution, fully integrated 11.6-inch displays.¹ Even in the rear, this gives you a great MBUX experience with direct access to vehicle functions.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

New wheel design.

The aerodynamic optimized wheels enhance efficiency and performance while adding a sleek, modern touch to the vehicle's design.

Offroad capabilities.

Thanks to permanent all-wheel drive, you also drive stably and confidently in every situation. Three engageable differential locks also ensure progress, even in the most difficult terrain. On-road, you experience improved agility and driving safety, especially in wet, slippery or snowy conditions. At the heart of the Mercedes-Benz G-Class is unmatched offroad performance, with exceptional climbing, fording, and side slope abilities.

Mercedes-Benz G 580 with EQ technology | Energy consumption combined: XX,XX-XX,XX kWh/100 km | CO₂ emissions combined: XXX-XXX g/km | CO₂-Class: XXX.¹

¹The specified values were determined in accordance with the prescribed measurement procedure WLTP (Worldwide harmonized Light-duty vehicles Test Procedures). The fuel consumption and CO₂ emissions of a passenger car depend not only on the efficient utilisation of fuel by the car, but also on the driving style and other non-technical factors.

MANUFAKTUR running boards.

With the MANUFAKTUR running boards in black¹, you can highlight the individuality and dynamism of your Mercedes-Benz G-Class even further. Other selective black accents are the black painted roof, bumpers and flared wheel arches in black – or you can choose a complete black finish.¹

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

Burmester 3D sound.

With 18 speakers and 760 watts of system output, you can enjoy the legendary Burmester® sound experience. You can customise the 3D sound for the front or rear seats according to your taste. Your vehicle can also play music in Dolby Atmos® quality – for a particularly touching and engaging surround sound.¹

New steering wheel.

The elegant leather cover makes the new multifunction sports steering wheel a highlight in the interior. Use the touch control panels to operate the most important vehicle functions without having to take your hands off the steering wheel.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

MANUFAKTUR door knobs.

With the MANUFAKTUR Logo Package¹, you can feel the legendary letter “G” on the MANUFAKTUR door knobs with embossed logo every time you open the door.

KEYLESS-GO.

KEYLESS-GO¹ puts an end to searches for the vehicle key. Your key will be recognised when you have it on your person while close to or inside your vehicle: all the doors – including the rear door – can then be opened and locked simply by touching the door handle.

Temperature-controlled cup holders.

With the temperature-controlled cup holders¹, cold or hot drinks are always within reach for your rear passengers. Bottles, cans and cups are securely fixed in the rear cup holders. A temperature of between 8°C and 55°C can be maintained as required.

Wireless charging.

With just a simple movement of your hand, your mobile device is placed in its allocated spot at the front of the centre console, where it is charged wirelessly. Regardless of model and brand, Qi-compatible mobile devices charge wirelessly.

Eco Coach App.

The Eco Coach App uses live data to support you in the use of your electric vehicle. It provides helpful tips and explanations on using your vehicle in a sustainable and resource-saving way based on your individual driving, charging and parking activities.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

EDITION ONE.

With the EDITION ONE¹, you are showing yourself to be a pioneer of a new era: the G-Class is going electric. The unmistakable appearance of the special model is characterised by blue design elements on the exterior, combined with the AMG Line and Night Package. In the interior, the SUPERIOR Line welcomes you with its own colour concept and topstitching in blue.

Mercedes-Benz G 580 with EQ technology | Energy consumption combined: XX-XX-XX,XX kWh/100 km |
CO₂ emissions combined: XXX-XXX g/km | CO₂ Class: XXX.²

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

²The specified values were determined in accordance with the prescribed measurement procedure WLTP (Worldwide harmonized Light-duty vehicles Test Procedures). The fuel consumption and CO₂ emissions of a passenger car depend not only on the efficient utilisation of fuel by the car, but also on the driving style and other non-technical factors.

THE RISE OF THRILL.

The all-new Mercedes-AMG G 63 embodies an aura of sheer power and sophistication. Its design is a harmonious blend of extroverted elegance and athletic prowess. Every element, from its commanding presence to its refined details, showcases AMG's commitment to performance and luxury. Elegance meets performance in the AMG-specific radiator grille, marked by its standout vertical struts. The AMG Exterior Carbon-Fibre Package¹ adds a touch of sporty, modern elegance and dynamism, blending lightweight robustness into the vehicle's aesthetics.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

AMG DRIVING PERFORMANCE.

AMG SPEEDSHIFT TCT 9G delivers power and precision through seamless gear changes that enhance driving dynamics, delivering exhilarating driving moments with every shift. The AMG ACTIVE RIDE CONTROL Suspension takes the all-new Mercedes-AMG G 63's performance to unparalleled heights. On the road, it offers supreme roll stiffness, boosting performance while enhancing comfort. Offroad, it ensures exceptional interlock and traction, further elevating the comfort of your adventure.

A blue Mercedes-AMG G63 is shown from a front-three-quarter view, driving on a road that curves into the distance. The car's headlights are on, and its license plate reads 'S G6324'. The background features a city skyline at sunset, with the sky transitioning from orange to dark blue. The car is positioned on the left side of the frame, moving towards the right.

PERFORMANCE.

The AMG Performance Package bundles high-performance components for a noticeable and visible increase in sportiness – for example the AMG ACTIVE RIDE CONTROL suspension including active roll stabilization, the RACE START function, AMG TRACK PACE, 22" AMG forged wheels in techgold and red-painted AMG brake callipers. Everything that inspires sports drivers is on board.¹

The AMG Performance Package PRO drives on where others have to turn back: With AMG ACTIVE RIDE CONTROL suspension, the exclusive offroad modes AMG Traction PRO and AMG Active Balance Control, robust all-terrain tires and the PROFESSIONAL roof rack, your Mercedes-AMG G 63 will take you almost to the end of the world.¹

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

AMG-SPECIFIC EXHAUST SYSTEM.

Not just style – the AMG-specific exhaust system in black^{1,2} are a performance symbol, offering a range of engine sounds to match every driving mood, from a subtle purr to a sporty roar.

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.
² Only available in combination with MANUFAKTUR running boards in black.

AMG WHEELS.

With a commanding 55.9 cm (22") presence and sleek design, the G-Class AMG multi-spoke forged wheels boast both striking aesthetics and superior performance.¹

AMG SEATS.

Feel the sleek finish of the extended scope of upholstery in nappa leather with perforations and AMG-specific seat pattern. Crafted with precision, the seats offer great comfort and support, ensuring every drive feels exceptional.

LOGO APPLICATIONS.

Love for detail – even when hidden: AMG fuel filler cap in silver chrome with “AMG” lettering and design elements in black.

Engine.

The improved power and torque of the G 500 engine combines superior driving performance with the pleasant smoothness of a 6-cylinder in-line petrol engine. The electric auxiliary compressor delivers high torque even at low engine speeds, and the mild hybrid concept with integrated starter-alternator (ISG) provides increased performance and reduced consumption. Or unleash the might of the all-new Mercedes-AMG G 63. Its AMG 4.0-litre V8 engine with integrated starter-alternator (ISG) is a testament to performance and efficiency. It's a masterclass in engine technology featuring twin-scroll turbochargers positioned between the cylinder heads in a unique "hot inner-V".

Drivetrain.

AGILITY CONTROL suspension seamlessly blends ride comfort with driving stability. Experience unmatched driving on any terrain as it intuitively adjusts ride dynamics, damping, and stabilization based on the road conditions you encounter. AMG SPEEDSHIFT TCT 9G delivers power and precision through seamless gear changes that enhance driving dynamics, delivering exhilarating driving moments with every shift.

Paint Colours.

Simple or extravagant? With MANUFAKTUR, you can choose from many different exterior colours for your all-new Mercedes-Benz G-Class.

Upholstery.

Transform your vehicle's interior into a personal statement with MANUFAKTUR's exclusive upholstery choices. Every stitch and texture is a testament to premium craftsmanship, ensuring a luxurious ambiance tailored just for your all-new Mercedes-Benz G-Class.

MANUFAKTUR Logo Package.¹

With the MANUFAKTUR Logo Package¹, you can feel the legendary letter “G” on the MANUFAKTUR door knobs with embossed logo every time you open the door. In addition, you are welcomed by an exclusive mirror projection of the lettering “G – STRONGER THAN TIME”. This makes even getting into your G-Class a special experience.

MANUFAKTUR Full Leather Package.¹

Virtually the entire interior of your G-Class is upholstered in exquisite nappa leather, from the roof liner to the panelling of the A, B, C and D pillars and the seat backrest trim. Experience exceptional MANUFAKTUR craftsmanship – for a fantastic ambiance and quality down to the smallest detail.¹

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

MANUFAKTUR Schöckl Design Package.

With this Package, you can demonstrate your enthusiasm for legendary offroad expertise: On the spare wheel cover and the door sills you can see the topography of the Schöckl near Graz with test track. The G-Class has been proving its offroad capabilities on this mountain since 1979. The exterior protective strip also reflects our promise: “Schöckl proven since 1979”.¹

Mercedes-Benz G 500 | Energy consumption combined: XX,XX-XX,XX kWh/100 km | CO₂ emissions combined: XXX-XXX g/km | CO₂-Class: XXX.²

¹The availability of the equipment, functions, features and services shown depends on the respective vehicle model, the individual configuration and the respective market.

²The specified values were determined in accordance with the prescribed measurement procedure WLTP (Worldwide harmonized Light-duty vehicles Test Procedures). The fuel consumption and CO₂ emissions of a passenger car depend not only on the efficient utilisation of fuel by the car, but also on the driving style and other non-technical factors.

MANUFAKTUR.

In 2019, we launched our G-Class MANUFAKTUR range. Successfully! The response to the extensive portfolio of optional extras has been outstanding. Now we have expanded our offer once again: Our customers can now select from among thousands of paintwork options when they order their G-Class and thus give their vehicle a very personal touch. For this purpose, we have connected the production plant in Graz, Austria, to what is known as the Mercedes-Benz customer request system (KWS). This involves a digitalized process that allows us to commission and implement individual requests quickly and easily.
